REMARKABLE
瑞马科宝

REMARKABLE

REMARKABLE is a leading hot-dip galvanizing service company in China. With more than 40 years of anti-corrosion experience since 1984, it currently has 9 environmentally friendly automatic galvanizing lines.

国华管塔
Guohua Tube Tower

Guohua Tube Tower

Guohua is an industry leader in design, manufacturing and supply Steel pole, Steel tower, Steel tube tower, Substation steel structure & Gantry, Steel structure for power, telecom, lighting, etc.

板弘国际
HYSTONE

Hystone International Engineering

Hystone is dedicated to power transmission line and new energy construction in China market.

ZGUMT
优美特工程技术
UBEST ENGINEERING TECHNOLOGY

UBEST Engineering Technology

UBEST specializes in design, manufacturing, processing and sales of various types of pipes.

BAOHWA
宝华新材

Baohwa Metal Material

Baohwa is a leading manufacturer of ZAM(Zn-Al-Mg) materials widely used for solar, construction, auto, electrical, agriculture & animal husbandry, traffic, ect.

Youquan E-Commerce Information Tech

Youquan is an industrial vertical e-commerce platform for galvanizing steel products, fasteners and accessories for Power and PV industry etc.

ESET

EverShine Energy Tech

EverShine Energy Tech focus on the R&D, manufacturing and sales of Solar trackers, fixed tilt & tensible cable mounting systems, BIPV systems.

Yongruixiang Intelligent Tech

Yongruixiang is a green, intelligent and automated power production and processing base that meets national first-class standards, integrating electricity, photovoltaics, and intelligent energy storage equipment.

Xuzhou RITMAN Equipment Co., Ltd. is an intelligent equipment enterprise under METAVAST Group. With the mission of "digital, intelligent, and worry-free industrial production", the company is a national high-tech enterprise.

RITMAN main business includes three sectors:

Coating technology and equipment:

Fully automatic and eco-friendly HDG plant:

- Batch galvanizing line: General, Blowing, Centrifugal
- Continuous galvanizing line: ZAM, GI, GL etc.

Laser cutting machine:

Sheet/ Pipe laser cutting machine, automatic laser welding and other equipment, as well as the overall solution for laser automatic production.

Digital products and services:

Software development and service, digital factory construction, program planning, consulting service, product development, training & delivery etc.

R&D Strength

The R&D center has over **120 engineers** who covers more than **8 major professional fields**, including chemical, thermal, structural, mechanical, automation, information technology, visual recognition and environmental engineering.

The R&D Centre is divided into 8 specialised areas

Business Scope

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Batch Galvanizing

Straight

Orbit

Turntable

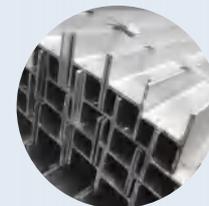

Track-crossing

General Galvanizing Plant

RITMAN has a strong technical team that can design production lines with different types of layouts according to customer requirements.

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Batch Galvanizing

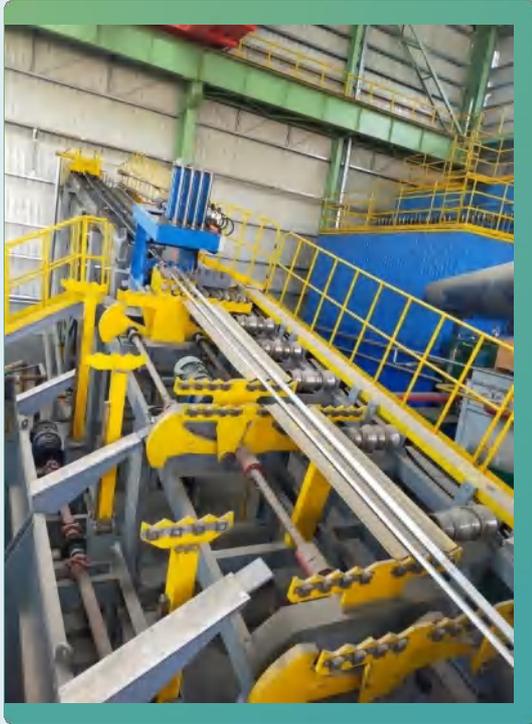

Centrifugal Galvanizing Plant

- Fully automatic operation.
- Small land occupation.
- High production capacity, up to 3000 kg per hour.
- Total 3 workers.

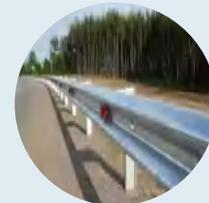

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Batch Galvanizing

Blowing Galvanizing Plant

- Pipes (Round, Square, Rectangular)
- Road Barriers
- Profile (H-beam, Angle Steel, I-beam)

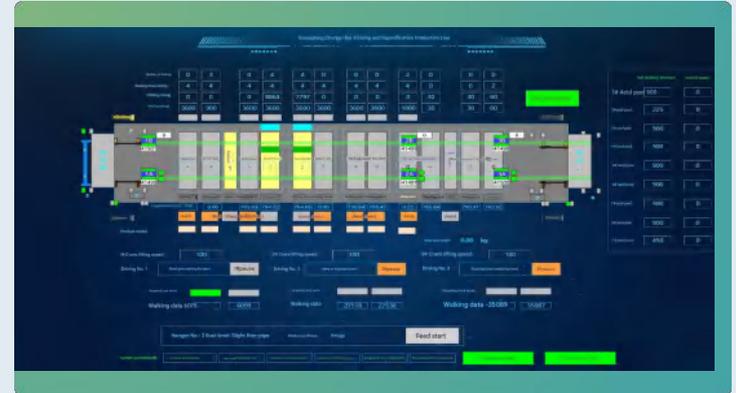

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Batch Galvanizing

Pickling and Phosphating Line

Fully Automatic Operation of Pickling and Phosphating Processes for Steel Wire Rods and Steel Bars.

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

CGL(GL,GI,ZAM) & CCL

- 3D visualization design adopted for the production line.
- MES informationization technology
- Intelligent Uncoiling System
- High efficiency pre-treatment cleaning system
- Oxidation-free heating technology
- Precise control system for the convexity of the furnace rollers
- The mechanical seal and the side external filter system adopted for the furnace snout
- Automatic online detection for aluminium and magnesium content in the galvanizing kettle
- High pressure steady flow mobile air cooling technology

5 Billion **450,000 Tons**

Annual output

Phase I output

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Galvanizing Equipment

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Galvanizing Equipment

Centrifugal Galvanizing Kettle

General Galvanizing Kettle

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Value of Automation

Labor Savings

Reduce workforce requirements
Lower skill level demands for workers.

1

Reduction in Resource Consumption

Decreases the use of water, electricity, gas, and chemicals;
Reduces the generation of wastewater and solid waste.

2

Increased Production Capacity

Automated production lines can increase output by 2-3 times compared to traditional manual production lines.

3

Stable Product Quality

With automatic operation and stable processes, product quality will be more consistent and reliable.

4

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Logistics

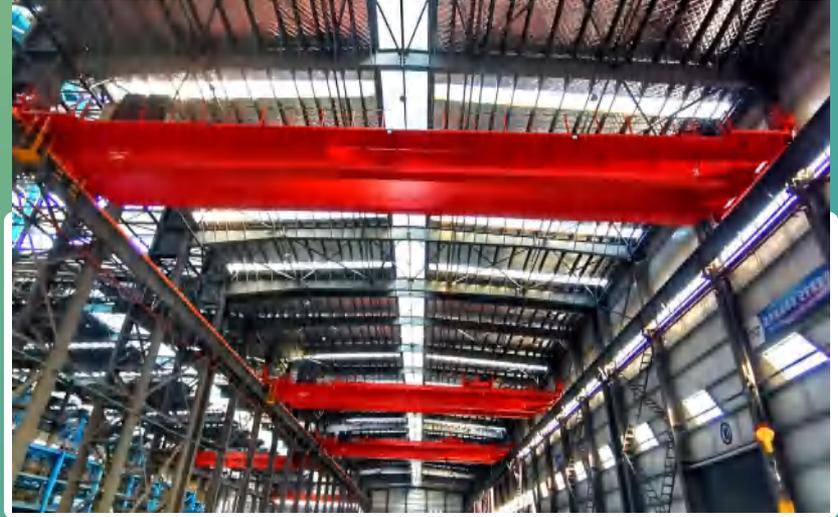

Automatic Travelling Crane

Realize the Automation of Loading & Pre-treatment & Galvanizing & Unloading.

FACTORY

FACTORY

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Logistics

Monorail Crane

M7 & Anti-swing & Precision

Automatic operation in the
pretreatment & galvanizing area.

SEW, SIEMENS, P+F...

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Pipeline System

Automatic Control of Liquid Level, Liquid Transfer and Water Replenishment.

FACTORY

FACTORY

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Heat Recuperation System

Automatic Heating of Degreasing & Fluxing & Drying Pit.

FACTORY

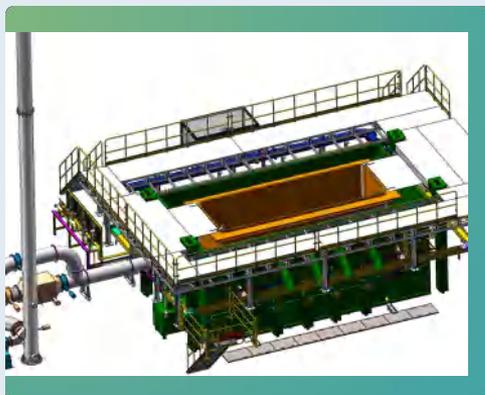

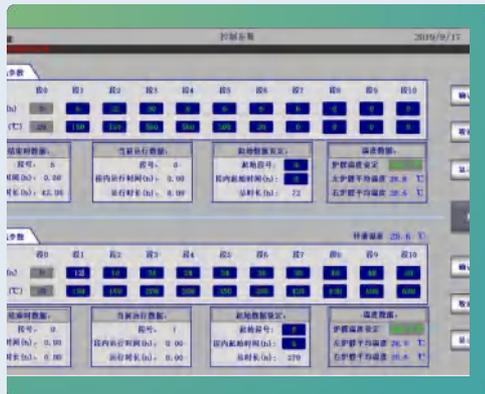

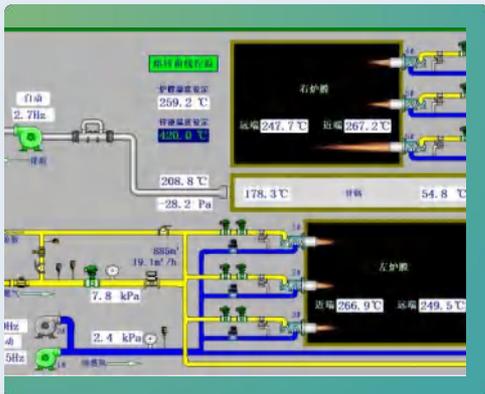

FACTORY

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Furnace

- Fusion of Control System and Galvanizing Process
- Multiple Safety Protection Interlock
- Different Operating Modes

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Environmental Equipment

Acid Mist Scrubber

Linkage of the entry and exit
equipment of the pre-treatment
area & automatic frequency
conversion & micro negative
pressure control

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Environmental Equipment

Flux System

Automatic operation

Low content moisture in flux mud

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Environmental Equipment

Water Treatment System

Automatic operation

No wastewater direct discharge

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Automation System for Environmental Equipment

Bag Filter

Linkage of the galvanizing operation

Automatic frequency conversion

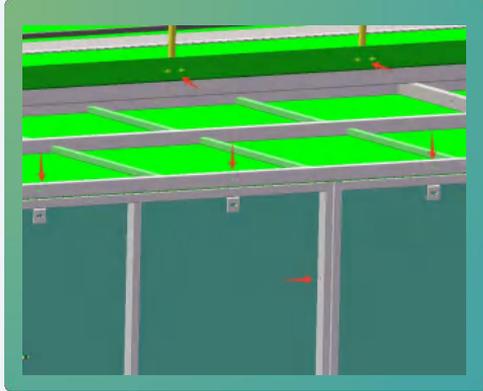

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

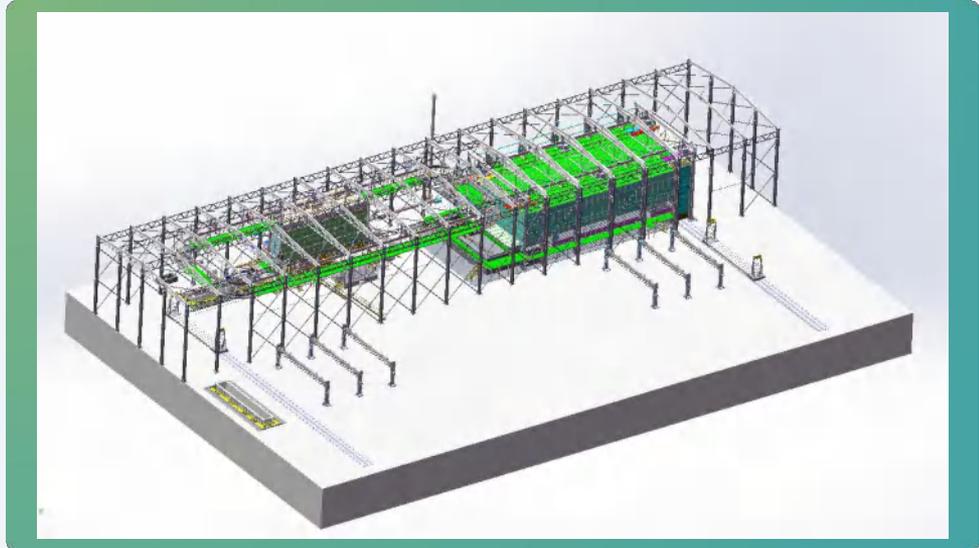

Modular

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Modular Design

- Equipment bolted connection
- Less welding at site
- Close-loop control before shipment
- Reliable quality

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

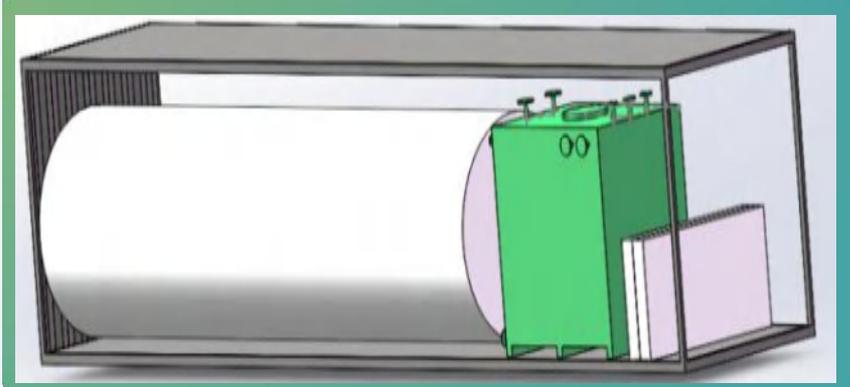

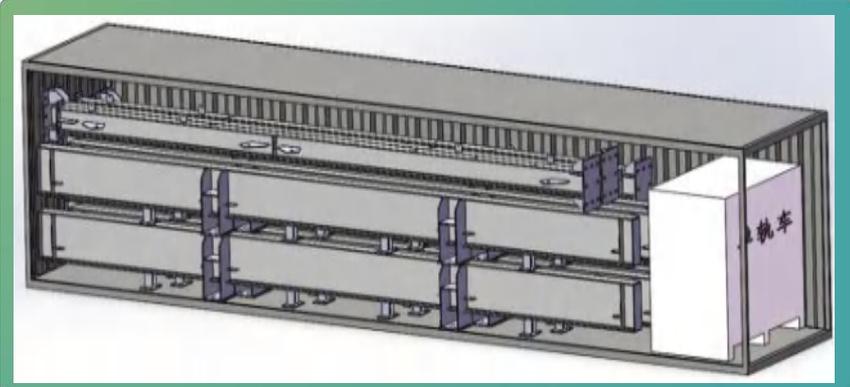

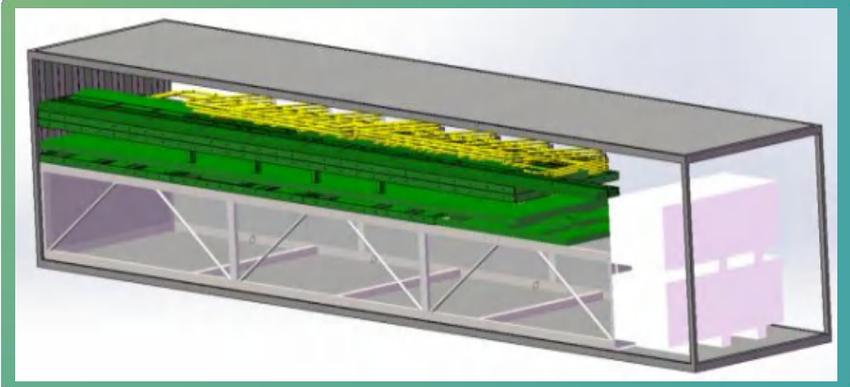

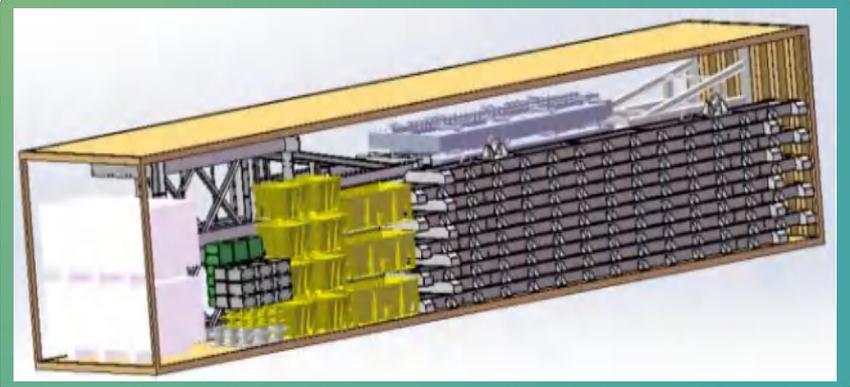

Modular Assembly

Shorter Construction Period

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Modular Container Loading

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

Modular Communication

TIANQI “IoT”

- Remote access
- Update program online
- Telecommunication module
- Improve work efficiency

Siemens G120 Inverter

- Corrosion-resistant
- Anti-interference

SCADA & MES

BECOME THE LEADER OF GREEN, INTELLIGENT, AND WORRY-FREE PRODUCTION IN THE HOT-DIP GALVANIZING INDUSTRY!

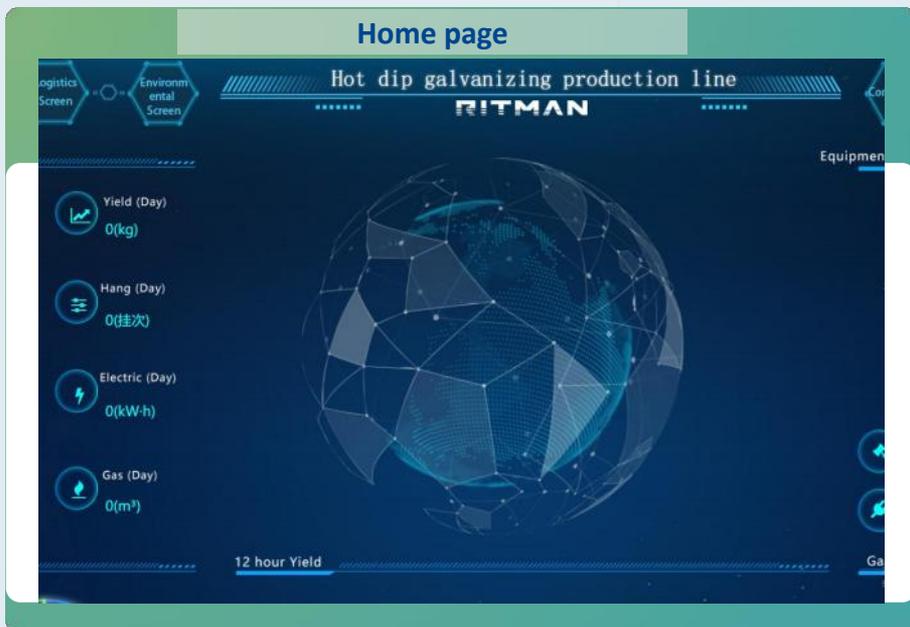

➤ With the **MES** system developed by RITMAN according to the HDG operation conditions, the data from the production line can be collected in real-time and quickly **analyzed**, to allow the **O&M** staff to understand the information of the production line in time, thus improving the production efficiency and controlling the **O&M** cost.

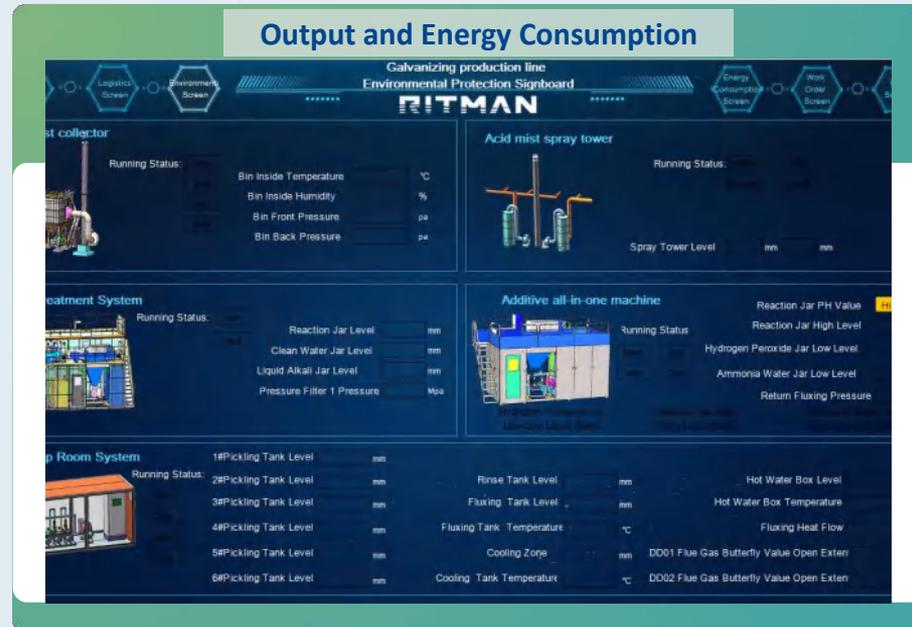

➤ It can be seamlessly interfaced with the world's leading financial systems such as **U8** and **SAP** to generate timely financial statistics data, **cost analysis** and other operation and maintenance data, making it easy for managers to control production information in a timely way.
